Two applications, one projection screen — 100% Projecta

**PROJECTA**  
SCREENS FOR PROFESSIONALS

Eliminate ambient light glare and hotspotting

High quality projection surface

Suitable for interactive projectors

Marker board capabilities

## Projecta Dry Erase Screens

The Projecta Dry-Erase Screen is a revolutionary dual-purpose projection screen and writable marker board combination. A unique projection screens that provides the functionality of a dry erase board without sacrificing the ability to display a clear and vibrant image. The projection surface has professional features such as a gain of 2.5 and 50 degree viewing angle. Also the projection surface practically eliminates the ambient light glare and hotspot that are known with standard whiteboards. A perfect solution for every installation with (interactive) short throw projectors.

### Dry Erase Magnetic

- Superior projection quality surface with magnetic dry erase marker board functionality
- Stream-lined aesthetic frame

Aspect ratio	Diagonal	Viewing Area (H x W cm)	Overall Frame Dimensions (H x W cm)	Product code
16:10	68"	91 x 146	93 x 148	10630806
	94"	117 x 187	119 x 189	10630807
16:9	73"	91 x 163	93 x 164	10630808
	87"	117 x 208	119 x 210	10630809
