

TOTEM MONOLITH OUTDOOR  
PROFESSIONAL DISPLAY SUPPORT

## OUTDOOR USE

The TOTEM MONOLITH is designed for intensive outdoor use.

## UP TO 75"

TOTEM MONOLITH is available with different size suitable for screen up to 75"

## EXCLUSIVE AIR FLOW

The exclusive air flow system combined with a heating and air conditioning system guarantee an ideal temperature for the functionality of the screen.

This exclusive air flow system is generated by a particular design of the structure with a double chamber, of which the internal one always remains at the optimal temperature.

## DOOR WITH PROTECTIVE GLASS

The door with front opening and safety locks includes protective glass.

## UV FILTER

If necessary, UV filters can be applied to protect the screen from the sun's rays.

## STANDARD OR OPEN-FRAME SCREEN

The totem is ideal for housing standard or open-frame monitors and allows the housing of miniPCs or other devices.

## CUSTOMIZE YOUR TOTEM

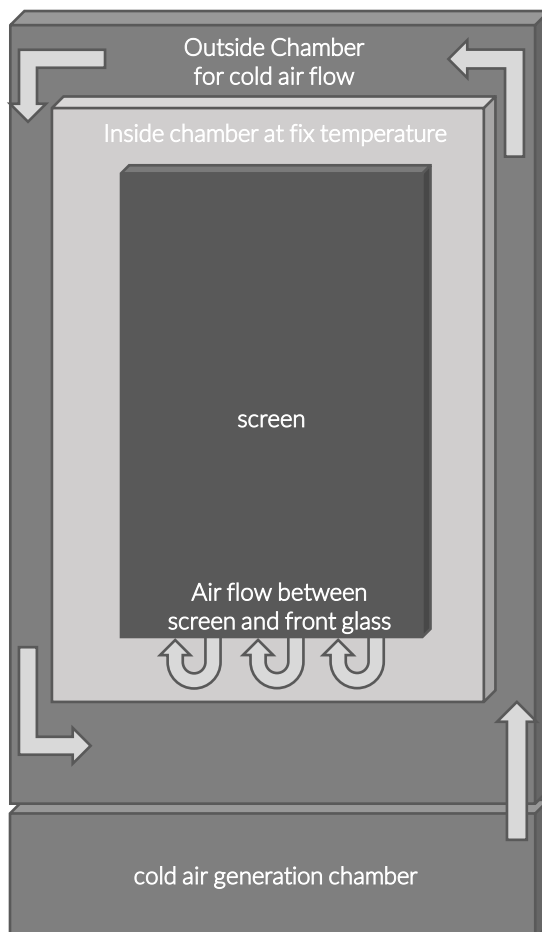

MONOLITH is available in 2 standard versions:

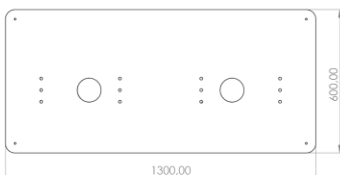

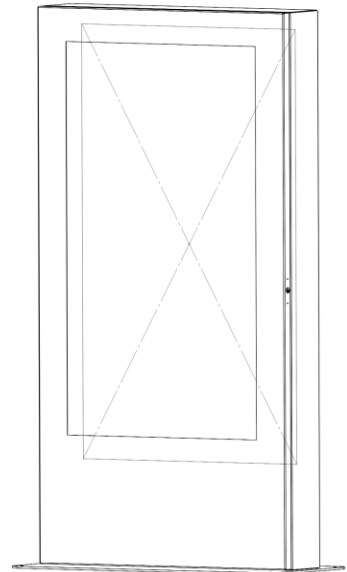

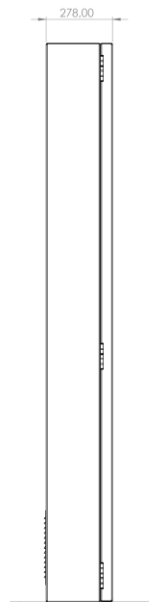

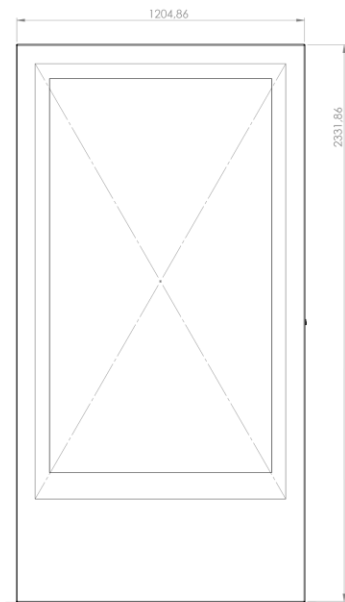

- only with forced ventilation and heater
- with forced ventilation, heater and air conditioning

But the product can be customized with various accessories, such as:

- keyboard for outdoor use
- thermal printer
- human proximity sensor
- web cam
- Touch frame or touch foil
- Freestanding base
- Totem's temperature remote check

The color is upon customer request
